BEAUTY CHATS

'Ware Of Beauty Fakers!

NEWSPAPERS THAT CARE more for
money than truth and magazines
that are trying to fill their advertising
columns will run announcements
of so-called beauty doctors,
who claim to make you beautiful in
one course of treatments, and who
make all sorts of almost impossible
assertions. Beware! You have only
your judgment to go by, for many
reputable beauty parlors advertise
also, and all sorts of healing and
cleansing preparations are advertised
that are worth while using.

Beauty doctoring is much like any
other profession, it suffers from imitations.
Certain excellent herb
compounds were once concocted and
immediately the patent medicine
faker trailed through the land, leaving
bottles of bitter roots and water in
his wake, and collecting coin on the
way. Really able beauty culturists
can do such wonderful things these
days, that many a person with no
skill and but little knowledge trades
on the credence these real cures
foster.

A skillful doctor can make you fat
or thin, can eradicate wrinkles, fix
a receding chin, a crooked or snub
nose, clear a bad complexion, cure
many cases of baldness, make thin
hair thick—indeed, there are few
parts of the human body that cannot
be improved upon by skill. But
—be careful of your specialist before
you put yourself in his hands.

You will find that the better the
doctors, the less complicated their
methods. Nature is the best doctor;
but nature needs a lot of intelligent
assistance at times. There are many
people, of course, who go to the opposite
extreme and claim that an entirely
natural life would mean true health
and beauty. This is a theory open to
a good deal of dispute, inasmuch as
our most beautiful girls are more
frequently from the "hooker" class,
than the open fields find. This is
because culture means beauty—culture
and a natural life are probably the
best combination.

Questions and Answers
N. P. L. of Boston:—Your letter is too
long to print, so will answer this way. In
each night.

Copyright by George Matthew Adams

ECONOMICAL IDEA.

"A friend of mine," says a clever
needlewoman, "had occasion to open
my shirt waist box the other day.
She came to me, saying: 'My, but
you are extravagant! You have eleven
pretty silk waists in that one box.
How did you happen to buy so much
wash silk?' My answer surprised her.
My husband works in a bank and must
wear very clean linen. He is partial to
silk shirts, but as soon as there is the
least break near the collar they are
thrown away. Shortly afterward I appear
in a new silk waist, for the rest of
the shirt is perfectly good. He is a
large man, and there is not the least
trouble in getting the waist from the
shirt. Sometimes I vary them by putting
on a plain collar and cuffs. You will
find that when using this idea you
do not mind at all how many new
shirts the man of the house chooses
to buy. You will even suggest at
times that a certain shirt in the
window would look well on him—and,
incidentally, on you."

GETTING RID OF ANTS

To get rid of ants in the house,
paint the edges and cracks of the floor
with oil of pennyroyal. The ants will
disappear very quickly. Care must be
used in the use of the drug as it is a
poison. Cayenne pepper is also very
effective in ridding the house of ants.
Sprinkle it about free, wherever ants
are seen.

FOR THE NEEDLEWOMAN.

The newest patchwork has a wonder
charm of its own. Quilts, cushions
and the like made of it should sell
well at one of the many charity bazaars
which will soon be the vogue. You
take, say, for a child's coverlet, a
square of quilted muslin, white for
preference, and apply to it a wreath
of flowers or fruit that you have cut
out in washing silk or linen. The flowers,
fruit and leaves must be of
bright colors and cut out daintily with
a pair of sharp scissors and basted
on to the square of muslin before they
are neatly sewn round. A brown basket
dressed with little oranges
and lemons and grapes is handsome
on a green or purple silk cushion.
Cherries with their leaves are charming
on pale green linen. Serge and
other woolen materials for foundation
and appliques may be pressed, of
course, into the service. Really the
quaint and pretty possibilities that lie
in the art of the new patchwork are
endless. How glad one is that a fresh
turn has been given to the dear old
handicraft.

The New York Central Railroad

has placed an order with the American
Locomotive Co. and the Lima Locomotive
Corporation for 230 engines.

Gross earnings of the Minneapolis,
St. Paul and Sault Ste. Marie Railroad
Co., for the year ending June 30, total-
led \$35,010,664.

The Results DO Take

Care of the Cost

You are worth more than the man receiving a
lower salary at the same place where you work.

Star-Bulletin WANT ADS are worth more than a
few window cards or a few letters to the public.

The cost of Star-Bulletin WANT ADS is not great,
but the cost is more than the cheapest attempt at a
substitute.

The reason why Star-Bulletin WANT ADS are
cheap is because usually the results take care of all
the cost and more.

"Value received" is the slogan of the Star-Bulletin
WANT ADS. Make good is their motto. The reason
why they do make good is because they have the
backing of the Star-Bulletin's large circulation.

EVEN CROSS, SICK CHILDREN LOVE SYRUP OF FIGS

If Feverish, Bilious, Constipated,
Give Fruit Laxative
at Once

Don't scold your fretful, peevish
child. See if tongue is coated; this is
a sure sign its little stomach, liver
and bowels are clogged with sour
waste.

When listless, pale, feverish, full of
cold, breath bad, throat sore, doesn't
eat, sleep or act naturally, has stomach-
ache, indigestion, diarrhoea, give
a teaspoonful of "California Syrup of
Figs," and in a few hours all the foul
waste, the sour bile and fermenting
food passes out of the bowels and you
have a well and playful child again.
Children love this harmless "fruit
laxative," and mothers can rest easy
after giving it, because it never fails
to make their little "insides" clean
and sweet.

Keep it handy, Mother! A little given
today saves a sick child tomorrow,
but get the genuine. Ask your drug-
gist for a 5-cent bottle of "California
Syrup of Figs," which has directions
for babies, children of all ages and
for grown-ups plainly on the bottle.
Remember there are counterfeiters sold
here, so surely look and see that yours
is made by the "California Fig Syrup
Company." Hand back with contempt
any other fig syrup.—Adv.

ODDS AND ENDS.

Before using tea, spread it on a
sheet of brown paper and place in a
warm, but not hot, oven for from
ten to fifteen minutes. The tea will
be much improved. By this method
there is a saving of a quarter of a
pound on every pound of tea.

The collar and cuffs of a silk blouse
often become soiled long before the
rest of the blouse needs washing.
Clean them with a soft rag dipped in
gasoline. Turn the rag as soon as it
becomes dirty.

To clean finger rings wash in a hot
lather of soap, water and ammonia,
using a brush to remove the dirt from
the chasing and beneath the stones.
Dry on a warm towel.

To clean cut glass satisfactorily use
a stiff bristle nail brush and hot water
to which a few drops of ammonia
have been added.

Don't pour away the water greens
have been boiled in until it has be-
come quite cold, otherwise it will
leave an unpleasant odor.

A handful of chopped ham added to
the soft dough of drop biscuits is sa-
vory and appetizing.

Wash cut glass with soap suds and
do not rinse; but, wipe with a good
quality Turkish towel. It leaves no
lint and gets into the deep cuts as
no ordinary towel will do.

Oranges and chopped nuts, with let-
tuce hearts and French dressing, make
an excellent salad.

In baking lemon pies put the lemon
juice in last and the mixture will al-
ways thicken properly.

To keep cakes from falling, rap the
bottom of tin before putting into oven.
This will dissolve the bubbles.

Crystallized mint leaves are easily
prepared and delicious to eat. Make
a thick boiled syrup of granulated
sugar and water. Dip large, fresh
mint leaves first in this syrup and
then in granulated sugar. Lay them
on greased paper to harden. As an
after dinner sweet, a garnish of
lamb, an original touch to a salad, or
with the fragrant mint julep, they are
attractive and appetizing.

The tailors and dressmakers cannot
—so it would seem—use enough rabbit
skin. As indicated a month ago, we
have chinchilla rabbit, and also mink
rabbit, and ermine rabbit. But of
these, chinchilla rabbit is easily first
favorite. Excellent chinchilla effects
are achieved with this short-haired,
inexpensive fur. As a trimming for
sweaters and for sport coats chinchilla
rabbit is in constant demand. It
looks lovely on all the subtle shades
of rose, now so fashionable and on cer-
tain neutral tints such as mouse-gray,
chamois, pearl-gray and so forth.

WEALTHY FLYER HAD NARROW ESCAPE FROM DEATH

NEW YORK, N. Y.—While flying in
a hydro-aeroplane over the East river,
Frederick Trubee Davison, son of H.
P. Davison of J. P. Morgan & Co., and
Robert A. Lovett, son of R. S. Lovett,
president of the Union Pacific railroad,
had a narrow escape from death re-
cently.

The engine "went dead" at a height
of 1,000 feet, and they were forced to
volplane. They were picked up from
the river at the anchorage of the New
York Yacht club. Neither appeared
the worse for the experience.

Davison and Lovett are students at
the aviation school established at Fort
Washington, L. I., by Mrs. Davison.
Davison has been flying several
months. Lovett was a passenger.

That "discrepancy" of a penny in
the accounts of the supreme court of
judicature reappears in the accounts
this year, and the problem of its ori-
gin is not yet settled. It is dreadful
to think of the dark mystery being
handed down from generation to gen-
eration with an ever-diminishing prob-
ability of solution. Will not some kind
person send a pennyworth of con-
science money to the chancellor to
straighten the account?

SEWS UP HOGS EYES

TRENTON, N. J.—Because he sew-
ed up his hog's eyes to keep them
from catching chickens, Joseph K.
Leigh, a Pleasant Valley farmer, has
been arrested and fined \$20 and costs.
Leigh's only excuse was that "father
used to do it." Some visitors in the
neighborhood discovered the practice
and notified Wallace Thornton, an S.
P. C. A. officer, who made the charge.
The full penalty is \$250 fine and six
months' imprisonment.

From the latest official report in
Germany: "Let it be understood that
nothing made of rubber is valueless—
old or new, let us have it. There are
the rings from mineral water bottles,
the mouthpieces of babies' bottles,"
